RE: Installation of Fence in City Drainage Easement

To: Department of Inspections

While preparing to install a fence at my residence, located at _____, Hinesville, GA 31313, I was informed that the location of my fence would cover a drainage easement. As the owner of this residence, I would like to obtain permission to construct the fence as planned with the understanding that if the City of Hinesville needed to access the drainage easement they would have the right to disassemble the fence and not be responsible for replacement.

I understand that this does not include other utility easements, such as Georgia Power, CenturyLink or Comcast easements. If necessary, I must obtain approvals from each provider to construct the fence in said easements.
